TOO YOUNG TO DRINK THEM?

Is cappuccino your favourite hot drink or do you prefer iced energy drinks? 34% of teenagers drink coffee every day. Energy drinks are even more popular among them.

Scientists agree that one or two small cups of coffee per day are not dangerous but they say that too much coffee is not good for our health. For example, people who overuse coffee can feel nervous or even panic. Energy drinks are similar to coffee. Their overuse (more than one can a day) combined with intensive physical activity can damage the heart.

Anyway, coffee and energy drinks are a big business. Coffee is often found in sweets, for example in chocolate, ice-cream or cakes. The problem is that we don't often know how much coffee is in them. For example, if we have a coffee cake in a restaurant, the menu doesn't inform us about the amount of coffee in it.

Energy drinks look attractive and people who make them speak about them attractively too. They say, for example, that energy drinks give us energy and that they make us happy. They sometimes give free energy drinks to students to "teach" them to drink them (and pay for them later).

So, when you stop at a drink machine next time, first ask yourself if you are thirsty. Then think carefully which drink is the best for you.

RICHARD III'S BURIAL TAKES PLACE

The remains of King Richard III were buried at Leicester Cathedral on 26 March 2015. A special service took place during which actor Benedict Cumberbatch, who's a distant relation of the king, read a poem. The poem was specially written for the occasion by poet Carol Ann Duffy. Many people watched the service outside of the cathedral on a large screen.

Richard III died at Bosworth Field in 1485, at the end of the War of the Roses. His body was found under a Leicester car park in 2012. More than 20,000 people queued for hours to view the coffin in Leicester Cathedral.

Who was Richard III?

Richard III was the last Yorkist King of England; this means he was the last member of the House of York family to be made king. Richard had one of the shortest rules in British history - just over 2 years, and he was the last English king to die in battle. He was killed at the Battle of Bosworth in 1485, which led to the end of the War of the Roses. This was fighting between the houses of Lancaster and York that lasted 30 years.

Richard III has been painted as a villain. It's said he killed his two nephews so he could take the throne and William Shakespeare wrote a play about him. However, some historians say this was propaganda and might have been unfair.
